

# BLUEBERRY SORBET

**KYRSTIN NEEDHAM**

*1/4 cup of apple juice*

*1 cup of frozen blueberries (we pick ours fresh and freeze them during blueberry season)*

*2-3 mint leaves and more for garnish*

*Add honey to taste to desired sweetness.*

Place ingredients into a food processor and blend into creamy consistency, adding more apple juice if needed to reach desired consistency. It should be a creamy texture like a smoothie, but formed like ice cream to be able to scoop it. Add a mint leaf on top for garnish.
